

ALL COMPETITIVE RACES COVERED

**#1**

Mass-start events are still not approved in Utah, & neither are mass gathering events. In addition, the UCI World Championships in Vancouver BC Canada has been canceled as of May 25th, 2020.

Unfortunately we are unable to offer this qualifier event for the UCI Gran Fondo World Series and the Gran Fondo National Series. As a result, we will not professionally time the recreational rides. Any racer interested in still participating in either the 35, 50, 75 or 100-mile route, will receive a discount from the UCI price. We will work with all those who registered to qualify for UCI GF Worlds.
